- e. Such further and other relief the Court deems reasonable and just.

JURY DEMAND

Plaintiff and Class Members hereby demand a trial by jury.

DOCUMENT PRESERVATION DEMAND

Plaintiff demands that Defendant take affirmative steps to preserve all records, lists, electronic databases or other itemization of telephone numbers associated with Defendants and the communication or transmittal of the text messages as alleged herein.

Date: March 26, 2019.

Respectfully submitted,

EISENBAND LAW, P.A.

Telephone: [REDACTED]

Counsel for Plaintiff and the Class

numbers and/or to dial numbers from a list automatically, without human intervention, to make non-emergency telephone calls to the cellular telephones of Plaintiff and the other members of the Class.

69. These calls were made without regard to whether Defendant had first obtained express permission from the called party to make such calls. In fact, Defendant did not have prior express consent to call the cell phones of Plaintiff and the other members of the putative Class when its calls were made.

70. Defendant violated § 227(b)(1)(A)(iii) of the TCPA by using an automatic telephone dialing system to make non-emergency telephone calls to the cell phones of Plaintiff and the other members of the putative Class without their prior express consent.

71. As a result of Defendant's conduct and pursuant to § 227(b)(3) of the TCPA, Plaintiff and the other members of the putative Class were harmed and are each entitled to a minimum of \$500.00 in damages for each violation. Plaintiff and the class are also entitled to an injunction against future calls.

WHEREFORE, Plaintiff Terri Carfagno, on behalf of herself and the other members of the Class, prays for the following relief:

- a. A declaration that Defendant's practices described herein violate the Telephone Consumer Protection Act, 47 U.S.C. § 227;
- b. A declaration that Defendant's violations of the Telephone Consumer Protection Act, 47 U.S.C. § 227, were willful and knowing;
- c. An injunction prohibiting Defendant from using an automatic telephone dialing system to call and text message telephone numbers assigned to cellular telephones without the prior express consent of the called party;

Class are in the millions of dollars, the individual damages incurred by each member of the Class resulting from Defendant's wrongful conduct are too small to warrant the expense of individual lawsuits. The likelihood of individual Class members prosecuting their own separate claims is remote, and, even if every member of the Class could afford individual litigation, the court system would be unduly burdened by individual litigation of such cases.

64. The prosecution of separate actions by members of the Class would create a risk of establishing inconsistent rulings and/or incompatible standards of conduct for Defendant. For example, one court might enjoin Defendant from performing the challenged acts, whereas another may not. Additionally, individual actions may be dispositive of the interests of the Class, although certain class members are not parties to such actions.

COUNT I
Violations of the TCPA, 47 U.S.C. § 227(b)
(On Behalf of Plaintiff and the Class)

65. Plaintiff re-alleges and incorporates the foregoing allegations as if fully set forth herein.

66. It is a violation of the TCPA to make "any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using any automatic telephone dialing system ... to any telephone number assigned to a ... cellular telephone service" 47 U.S.C. § 227(b)(1)(A)(iii).

67. The TCPA defines an "automatic telephone dialing system" (hereinafter "ATDS") as "equipment which has the capacity – (A) to store or produce telephone numbers to be called, using a random or sequential number generator; and (B) to dial such numbers." *Id.* at § 227(a)(1).

68. Defendant – or third parties directed by Defendant – used equipment having the capacity to store telephone numbers, using a random or sequential generator, and to dial such

fact common to the Class are:

- (1) Whether Defendant made non-emergency calls to Plaintiff and Class members' cellular telephones using an ATDS;
- (2) Whether Defendant can meet their burden of showing that they obtained prior express written consent to make such calls;
- (3) Whether Defendant's conduct was knowing and willful;
- (4) Whether Defendant is liable for damages, and the amount of such damages; and
- (5) Whether Defendant should be enjoined from such conduct in the future.

60. The common questions in this case are capable of having common answers. If Plaintiff's claim that Defendants routinely transmits text messages to telephone numbers assigned to cellular telephone services is accurate, Plaintiff and the Class members will have identical claims capable of being efficiently adjudicated and administered in this case.

TYPICALITY

61. Plaintiff's claims are typical of the claims of the Class members, as they are all based on the same factual and legal theories.

PROTECTING THE INTERESTS OF THE CLASS MEMBERS

62. Plaintiff is a representative who will fully and adequately assert and protect the interests of the Class and has retained competent counsel. Accordingly, Plaintiff is an adequate representative and will fairly and adequately protect the interests of the Class.

SUPERIORITY

63. A class action is superior to all other available methods for the fair and efficient adjudication of this lawsuit, because individual litigation of the claims of all members of the Class is economically unfeasible and procedurally impracticable. While the aggregate damages sustained by the

text message also inconvenienced Plaintiff and caused disruption to his daily life.

CLASS ALLEGATIONS

PROPOSED CLASS

54. Plaintiff brings this case as a class action pursuant to Fed. R. Civ. P. 23, on behalf of herself and all others similarly situated.

55. Plaintiff brings this case on behalf of the below defined Class:

All persons within the United States who, within the four years prior to the filing of this Complaint, were sent a text message using the same type of equipment used to text message Plaintiff, from Defendant or anyone on Defendant's behalf, to said person's cellular telephone number.

56. Defendant and its employees or agents are excluded from the Class. Plaintiff does not know the number of members in the Class but believes the Class members number in the several thousands, if not more.

NUMEROSITY

57. Upon information and belief, Defendant has placed automated calls to cellular telephone numbers belonging to thousands of consumers throughout the United States without their prior express consent. The members of the Class, therefore, are believed to be so numerous that joinder of all members is impracticable.

58. The exact number and identities of the Class members are unknown at this time and can be ascertained only through discovery. Identification of the Class members is a matter capable of ministerial determination from Defendants' call records.

COMMON QUESTIONS OF LAW AND FACT

59. There are numerous questions of law and fact common to the Class which predominate over any questions affecting only individual members of the Class. Among the questions of law and

(3) Each packet was then transmitted in the sequential order listed to an SMS aggregator, which acts an intermediary between the Platform, mobile carriers (e.g. AT&T), and consumers.

(4) Upon receipt of each packet, the SMS aggregator transmitted each packet – automatically and with no human intervention – to the respective mobile carrier for the telephone number, again in the sequential order listed by Defendant. Each mobile carrier then sent the message to its customer’s mobile telephone.

50. The above execution these instructions occurred seamlessly, with no human intervention, and almost instantaneously. Indeed, the Platform is capable of transmitting thousands of text messages following the above steps in minutes, if not less.

51. Further, the Platform “throttles” the transmission of the text messages depending on feedback it receives from the mobile carrier networks. In other words, the platform controls how quickly messages are transmitted depending on network congestion. The platform performs this throttling function automatically and does not allow a human to control the function.

52. The following graphic summarizes the above steps and demonstrates that the dialing of the text messages at issue was done by the Platform automatically and without any human intervention:

53. Defendant’s unsolicited text message caused Plaintiff actual harm, including invasion of her privacy, aggravation, annoyance, intrusion on seclusion, trespass, and conversion. Defendant’s

was in fact utilized by Defendant.

46. The Platform has the capacity to dial numbers without human intervention, which capacity was in fact utilized by Defendant.

47. The Platform has the capacity to schedule the time and date for future transmission of text messages, which occurs without any human involvement.

48. Additionally, the Platform has an auto-reply function that results in the transmission of text messages to individual's cellular telephones automatically from the system, and with no human intervention, in response to a keyword (e.g. "STOP") being sent by a consumer, which function was also utilized by Defendant on January 23, 2019. As shown below:

49. To transmit the messages at issue, the Platform automatically executed the following steps:

- (1) The Platform retrieved each telephone number from a list of numbers in the sequential order the numbers were listed;
- (2) The Platform then generated each number in the sequential order listed and combined each number with the content of Defendant's message to create "packets" consisting of one telephone number and the message content;

Defendant's violation of the TCPA occurred within this district.

35. Upon information and belief, Defendant caused similar text messages to be sent to individuals residing within this judicial district.

36. Upon information and belief, Defendant owns and or operates the Website.

37. At no point in time did Plaintiff provide Defendant with her express consent to be contacted by text messages using an ATDS.

38. Plaintiff is the sole user of the 0087 Number.

39. The number used by or on behalf of Defendant (990-00) is known as a "short code," a standard 5-digit code that enables Defendant to send SMS text messages *en masse*.

40. The impersonal and generic nature of Defendant's text message, demonstrates that Defendant utilized an ATDS in transmitting the messages.

41. To send the text messages, Defendant used a messaging platform (the "Platform") that permitted Defendant to transmit thousands of automated text messages without any human involvement.

42. The Platform has the capacity to store telephone numbers, which capacity was in fact utilized by Defendant.

43. The Platform has the capacity to generate sequential numbers, which capacity was in fact utilized by Defendant.

44. The Platform has the capacity to dial numbers in sequential order, which capacity was in fact utilized by Defendant.

45. The Platform has the capacity to dial numbers from a list of numbers, which capacity

² <https://pro.moneymappressinfo.com/p/TGTLNC39/LTGTU926/?SID=tclick&h=true>

29. Defendant's text message constitutes telemarketing/advertising because it promotes Defendant's business, goods and services.

30. Specifically, Defendant attempts to sell Plaintiff a subscription and/or package to its financial courses.

31. Defendant makes a profit on every package and/or subscription that is purchased through its website.

32. The text message includes a link which leads to the following webpage (the "Website") where Defendant's goods and services are marketed:

Unsolicited telemarketing phone calls or text messages, by their nature, invade the privacy and disturb the solitude of their recipients. A plaintiff alleging a violation under the TCPA “need not allege any *additional* harm beyond the one Congress has identified.”

Van Patten v. Vertical Fitness Grp., LLC, 847 F.3d 1037 (9th Cir. 2017) (quoting *Spokeo, Inc. v. Robins*, 136 S. Ct. 1540 (2016)).

27. Similarly, the United States Court of Appeals for the Second Circuit recently held that the receipt of a telemarketing or unsolicited call “demonstrates more than a bare violation and satisfies the concrete-injury requirement for standing.” *Leyse v. Lifetime Entm’t Servs., LLC*, Nos. 16-1133-cv, 16-1425-cv, 2017 U.S. App. LEXIS 2607 (2d Cir. Feb. 15, 2017) (citing *In re Methyl Tertiary Butyl Ether (MTBE) Prods. Liab. Litig.*, 725 F.3d 65, 105 (2d Cir. 2013) (“The injury-in-fact necessary for standing need not be large; an identifiable trifle will suffice.”); *Golan v. Veritas Entm’t, LLC*, 788 F.3d 814, 819-21 (8th Cir. 2015) (holding that receipt of two brief unsolicited robocalls as voicemail messages was sufficient to establish standing under TCPA); *Palm Beach Golf Ctr.-Boca, Inc. v. John G. Sarris, D.D.S., P.A.*, 781 F.3d 1245, 1252 (11th Cir. 2015) (holding that injury under similar TCPA provision may be shown by one-minute occupation of fax machine)).

FACTS

28. On or about November 22, 2018, Defendant caused the following automated text message to be transmitted to Plaintiff’s cellular telephone number ending in 0087 (“0087 Number”):

transmitted to a person for the purpose of promoting property, goods, or services.” *Golan*, 788 F.3d at 820 (citing 47 C.F.R. § 64.1200(a)(2)(iii) & 47 C.F.R. § 64.1200(f)(12)); *In re Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991*, 18 F.C.C. Rcd at 14098 ¶ 141, 2003 WL 21517853, at *49).

22. The FCC has explained that calls motivated in part by the intent to sell property, goods, or services are considered telemarketing under the TCPA. *See In re Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991*, 18 FCC Rcd. 14014, ¶¶ 139-142 (2003). This is true whether call recipients are encouraged to purchase, rent, or invest in property, goods, or services during the call *or in the future*. *Id.*

23. In other words, offers “that are part of an overall marketing campaign to sell property, goods, or services constitute” telemarketing under the TCPA. *See In re Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991*, 18 FCC Rcd. 14014, ¶ 136 (2003).

24. If a call is not deemed telemarketing, a defendant must nevertheless demonstrate that it obtained the plaintiff’s prior express consent. *See In the Matter of Rules and Regulations Implementing the Tel. Consumer Prot. Act of 1991*, 30 FCC Rcd. 7961, 7991-92 (2015) (requiring express consent “for non-telemarketing and non-advertising calls”).

25. Further, the FCC has issued rulings and clarified that consumers are entitled to the same consent-based protections for text messages as they are for calls to wireless numbers. *See Satterfield v. Simon & Schuster, Inc.*, 569 F.3d 946, 952 (9th Cir. 2009) (“The FCC has determined that a text message falls within the meaning of ‘to make any call’ in 47 U.S.C. § 227(b)(1)(A)”).

26. With respect to standing, as recently held by the United States Court of Appeals for the Ninth Circuit:

are prohibited because, as Congress found, automated or prerecorded telephone calls are a greater nuisance and invasion of privacy than live solicitation calls, and such calls can be costly and inconvenient. The FCC also recognized that wireless customers are charged for incoming calls whether they pay in advance or after the minutes are used.

17. In 2012, the FCC issued an order further restricting automated telemarketing calls, requiring “prior express written consent” for such calls to wireless numbers. *See In the Matter of Rules & Regulations Implementing the Tel. Consumer Prot. Act of 1991*, 27 F.C.C.R. 1830, 1838 ¶ 20 (Feb. 15, 2012) (emphasis supplied).

18. To obtain express written consent for telemarketing calls, a defendant must establish that it secured the plaintiff’s signature in a form that gives the plaintiff a “‘clear and conspicuous disclosure’ of the consequences of providing the requested consent....and [the plaintiff] having received this information, agrees unambiguously to receive such calls at a telephone number the [plaintiff] designates.” *In re Rules & Regulations Implementing the Tel. Consumer Prot. Act of 1991*, 27 F.C.C.R. 1830, 1837 ¶ 18, 1838 ¶ 20, 1844 ¶ 33, 1857 ¶ 66, 1858 ¶ 71 (F.C.C. Feb. 15, 2012).

19. The TCPA regulations promulgated by the FCC define “telemarketing” as “the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services.” 47 C.F.R. § 64.1200(f)(12). In determining whether a communication constitutes telemarketing, a court must evaluate the ultimate purpose of the communication. *See Golan v. Veritas Entm’t, LLC*, 788 F.3d 814, 820 (8th Cir. 2015).

20. “Neither the TCPA nor its implementing regulations ‘require an explicit mention of a good, product, or service’ where the implication of an improper purpose is ‘clear from the context.’” *Id.* (citing *Chesbro v. Best Buy Stores, L.P.*, 705 F.3d 913, 918 (9th Cir. 2012)).

21. “‘Telemarketing’ occurs when the context of a call indicates that it was initiated and

individuals within this judicial district, such that some of Defendant's acts have occurred within this district, subjecting Defendant to jurisdiction here.

PARTIES

10. Plaintiff is a natural person who, at all times relevant to this action, was a resident of Sarasota County, Florida.

11. Defendant is a Maryland corporation with its principal address at 105 W Monument St., Baltimore, MD 21201. Defendant directs, markets, and provides business activities throughout the State of Florida.

THE TCPA

12. The TCPA prohibits: (1) any person from calling a cellular telephone number; (2) using an automatic telephone dialing system; (3) without the recipient's prior express consent. 47 U.S.C. § 227(b)(1)(A).

13. The TCPA defines an "automatic telephone dialing system" ("ATDS") as "equipment that has the capacity - (A) to store or produce telephone numbers to be called, using a random or sequential number generator; and (B) to dial such numbers." 47 U.S.C. § 227(a)(1).

14. The TCPA exists to prevent communications like the ones described within this Complaint. *See Mims v. Arrow Fin. Servs., LLC*, 132 S. Ct. 740, 744 (2012).

15. In an action under the TCPA, a plaintiff must show only that the defendant "called a number assigned to a cellular telephone service using an automatic dialing system or prerecorded voice." *Breslow v. Wells Fargo Bank, N.A.*, 857 F. Supp. 2d 1316, 1319 (S.D. Fla. 2012), *aff'd*, 755 F.3d 1265 (11th Cir. 2014).

16. The Federal Communications Commission ("FCC") is empowered to issue rules and regulations implementing the TCPA. According to the FCC's findings, calls in violation of the TCPA

4. Defendant engages in unsolicited telemarketing directed towards prospective customers with no regard for consumers' privacy rights.

5. Defendant's telemarketing consists of sending text messages to consumers soliciting them to purchase its goods and/or services.

6. Defendant caused thousands of unsolicited text messages to be sent to the cellular telephones of Plaintiff and Class Members, causing them injuries, including invasion of their privacy, aggravation, annoyance, intrusion on seclusion, trespass, and conversion.

7. Through this action, Plaintiff seeks injunctive relief to halt Defendant's illegal conduct. Plaintiff also seeks statutory damages on behalf of herself and Class Members, as defined below, and any other available legal or equitable remedies resulting from the illegal actions of Defendant.

JURISDICTION AND VENUE

8. Jurisdiction is proper under 28 U.S.C. § 1331 as Plaintiff alleges violations of a federal statute. Jurisdiction is also proper under 28 U.S.C. § 1332(d)(2) because Plaintiff alleges a national class, which will result in at least one Class member belonging to a different state than Defendant. Plaintiff seeks up to \$1,500.00 in damages for each call in violation of the TCPA, which, when aggregated among a proposed class numbering in the tens of thousands, or more, exceeds the \$5,000,000.00 threshold for federal court jurisdiction under the Class Action Fairness Act ("CAFA").

9. Venue is proper in the United States District Court for the Middle District of Florida pursuant to 28 U.S.C. §§ 1391(b) and (c) because Defendant is deemed to reside in any judicial district in which it is subject to the court's personal jurisdiction, and because Defendant provides and markets its services within this district thereby establishing sufficient contacts to subject it to personal jurisdiction. Further, Defendant's tortious conduct against Plaintiff occurred within this district and, on information and belief, Defendant has sent the same text message complained of by Plaintiff to other

Plaintiff,

CLASS ACTION

JURY TRIAL DEMANDED

v.

MONEY MAP PRESS, LLC,

Defendant.

CLASS ACTION COMPLAINT

Plaintiff Terri Carfagno brings this class action against Defendant Money Map Press, LLC (“Defendant”) and alleges as follows upon personal knowledge as to herself and her own acts and experiences, and, as to all other matters, upon information and belief, including investigation conducted by her attorneys.

NATURE OF THE ACTION

1. This is a putative class action under the Telephone Consumer Protection Act, 47 U.S.C. § 227 *et seq.*, (“TCPA”), arising from Defendant’s knowing and willful violations of the TCPA.
2. Defendant claims to give their customers “access to a team of investment experts – with more than 250 years of combined experience – who work to uncover these global trends well before the mainstream media even takes notice.”¹
3. Defendant sells literary subscriptions to consumers which include self-help financial courses and documents.

What are those “Mysterious M-Boxes” teased by Nova-X Report?

*** This article was originally published as part of the Friday File on March 8, 2019. It has been (very) lightly updated and unlocked for everyone to read *** Today’s teaser that we’ll feed to the Thinkolator is from Michael Robinson for his Nova-X Report (\$79/year), and it sounds kind of familiar.... These Mysterious ‘M-Boxes’ [...]

Nova-X Report’s “Productivity Supercharger” Stock

Michael Robinson has a “teaser article” out now, outlining some of his rationale for investing in a collaboration software company... but neglecting {ahem!} to mention the name of said company. So, naturally, questions roll in... and your friendly neighborhood Gumshoe does like to provide answers. The article in question is here if you want to [...]

Friday File: “Mysterious M-Boxes” and more

Since I added to a telecom/5G stock today, and I see that same stock being teased again this week, I thought I'd take this Friday opportunity to solve a teaser for you as I update you on my portfolio moves. The teaser is from Michael Robinson for his Nova-X Report (\$79/year), and it sounds kind [...]

What are John Boehner's "American Cannabis Summit" Stocks?

The Money Map folks have decided that it's time to go "all in" on cannabis, and for them that means starting a new investment research business that they call the National Institute for Cannabis Investors, and selling memberships in that group by teasing their favorite "special reports" on some appealing marijuana stocks that they'll give [...]

"Miracle Metal" powers "The Next Superstock?"

This particular ad from Ian Cooper has been running for six weeks or so, at least that I've seen, so it's not exactly "red hot" and brand new, but I'm still getting questions about it and the ad is still being circulated... and the stock being teased is down about 20% since I first saw [...]

"Kings of Canadian Cannabis" — Michael Robinson's "\$2,000,000 By This Time Next Year" Marijuana Teaser

Michael Robinson runs the technology/venture newsletters for Money Map Press, and he's out with yet another marijuana promo — after all, any newsletter that doesn't jump on board the marijuana stock rocket is deemed pretty much irrelevant these days, just like any newsletter without a "crypto expert" was ignored in January. So yes, now Michael [...]

Solved: Robinson's "Shape-Shifting 'Smart Metal'" Tease for 4,000% Gains?

Whew, we've got another doozy today! Michael Robinson is peddling his Radical Technology Profits by hinting at another life-changing technology idea, all based on a "shape shifting" smart metal called X-31 that he says will replace silicon. So, naturally, we want to dig in. As usual, we go in with eyes wide open, well aware [...]

RESOURCES

CONNECT WITH TRAVIS

- Tom Gentile "BS" sales letter intro
- Lies and fake testimonials.

FAST FORTUNE CLUB

"I'm Going to Hand You the Trading Secrets That Made Me a Multi-Millionaire on a Silver Platter!"

Tom Gentile

- Tom Gentile
America's # 1 Trader

Your first set of Payday Appointments could make you \$15,000 richer in the next 30 days!

And that's just the beginning...

I want you to remember this moment right now.

Because your life is about to change forever.

Just one of my trading techniques gave a small group of everyday Americans the chance to become \$999,195 richer...

But imagine if you could harness a new million-dollar trading secret every month!

As a founding member of my **Fast Fortune Club**, you don't have to imagine.

Because that's exactly what's going to happen.

And we aren't going to waste a moment.

Immediately after you secure your membership, you will receive your very first Money Calendar with eight Payday Appointments already locked and loaded.

- 1st Payday Appointment: \$2,177
- 2nd Payday Appointment: \$1,911
- 3rd Payday Appointment: \$2,473
- 4th Payday Appointment: \$1,566
- 5th Payday Appointment: \$2,388
- 6th Payday Appointment: \$1,694
- 7th Payday Appointment: \$1,311
- 8th Payday Appointment: \$1,739

But that's just to kick things off.

With **Fast Fortune Club**, I'm going to pull back the curtain and give you full access to all of the trading secrets that transformed me from a Home Depot clerk, into a multi-millionaire many, many times over.

I was once paid \$20 million, so Charles Schwab could access just a small glimpse of what I've invented.

But you're about to be handed all of it on a silver platter.

This is going to be a lot of fun.

Every month you are going to receive a *NEW* Money Calendar and a *NEW* Million Dollar Masterclass!

Each Money Calendar will have a lucrative set of Payday Appointments for a new trading strategy already lined up for you.

This way you'll be able to immediately capitalize on that strategy.

In fact, when the time is right, I will also release **Payday Alerts** with all of the research and simple, step-by-step instructions for collecting your potential winnings.

I'll send them via email. And I can even shoot you a text message to notify you when a Payday Alert has arrived in your inbox!

Then, with each **Million Dollar Masterclass**, I will teach you how to master that new strategy for yourself.

These live training videos will take you click-by-click through everything.

So when you're ready, you'll be able to find your own Payday Appointments!

And then you'll be able to collaborate with your fellow members to discover even more opportunities to make money.

The *Fast Fortune* Network Will Connect You with People Who, Like You, Are Driven for Success!

Chances are, you will quickly become an expert in a particular trading strategy from a **Million Dollar Masterclass**.

But other members may have mastered other techniques.

And you'll all be able to share the Payday Appointments you've found on the **Fast Fortune** Network's private chat rooms.

And if you'd like to join a local chapter in your city or town, you can arrange meetups with the members in your area with the click of a few buttons.

So to recap...

FIRST – I'm going to help you fill up those Payday Appointments on your Money Calendar, and I'll send you Payday Alerts when it's time to strike.

SECOND – You're going to help yourself, by following my **Million Dollar Masterclasses**. Soon you'll be hunting for your own Payday Appointments.

THIRD – You can share those Payday Appointments you've found with members – and they can do the same for you.

3) Members can share
Payday Appointments
with each other!

With this three-part approach, the potential is off the charts. Every month, your Money Calendar can quickly fill up with Payday Appointments.

And that could put you on the path to becoming a multi-millionaire.

New to Trading? No Problem! **My Quick-Start Cash Course Will Make You an Expert in No Time!**

This is a simple-to-follow, seven-part video series.

**Become *Money Morning's*
Next Success Story**

I'll give you a step-by-step walkthrough for setting up your trading account.

I'll tell you everything you need to know about making money from stocks, ETFs, options, everything.

And most importantly, I'll lay out my plan for helping you become a multi-millionaire.

But there's still more.

Your membership also includes:

- ✓ **Fast Fortune Progress Reports.** Every week, I will send you a thorough review of each of our trade recommendations.
- ✓ **Fast Fortune Podcast.** Every Friday, I'll send you a link to my private podcast where I'll give you my mission for making you the most money possible every week.
- ✓ **Fast Fortune Roundtables.** Every month, you'll be invited to join me and your fellow club members for a live online discussion.

"I couldn't be happier right now because **I made \$6,300** my first week!"

– Chuck Basel

"I'm on my way to becoming a multimillionaire. **I'm already up \$200,000!**" – Billy Dietrich

"This is going to be a great year... I'm up **\$15,000 in 3 days!**" – Gary Goetz

"**I made \$19,652 in 2 days! Sweet!**" – Cory Cupton

"I became **\$11,000 richer in 8 days!**" – Jason Klein

"I've made **\$1.5 million for the period!**" – Gil Lyons

To Sweeten the Deal, I'm Going to Make You an Offer That's Too Good to Resist!

The retail price for a one-year subscription to **Fast Fortune Club** is \$599.

However, if you accept this Founding Member invitation right now, I'm going to authorize a massive \$560 discount.

That means, during this special enrollment period, you can subscribe for only \$39.

That's less than 11 cents a day!

And besides the incredible savings, there are other amazing perks for becoming a Founding Member.

For example...

On Your Two-Month Anniversary, I'm Going to Send You a Founding Member Gift Box.

It's going to be filled to the top with incredible resources like...

- A **Fast Fortune Club** notebook...
- The **Fast Fortune Club** Roadmap to Riches...
- A **Fast Fortune Club** personal organizer...
- The **Fast Fortune Club** newsletter...
- The **Fast Fortune Club** member black card...

And there is still more!

I'm big on motivation.

So I'm going to be holding tons of BIG contests throughout the year.

For example...

You Could Be the Lucky Winner of a Trip of a Lifetime...

You'll be flown to my private vacation home on the South Island of New Zealand overlooking Ruby Bay!

During your week-long stay, you and a special guest will enjoy...

- A private chef...
- A luxury car to drive...
- A helicopter tour...
- A local vineyard tour...
- Plus, more fun surprises...

And don't forget...

Every Year, I'm Going to Throw a Three-Day

Party... and You'll Always Be the Guest of Honor!

It's called the **Fast Fortune Summit**.

And every year it will be held somewhere sunny – San Diego, Key West, The Bahamas – at one of the finest resorts in the world.

Pristine pools, a championship golf course, world-class spa...

Award-winning restaurants...

We're going to have cocktail parties... champagne toasts... live training sessions... networking events.

It's going to be a lot of fun.

You're welcome to bring your spouse or a friend!

And we'll try to fit in a round of golf or two.

I hope you're as excited as I am.

But you must hurry because...

This Special Founding Member Enrollment Period Could End at Any Time...

So time is of the essence.

If you reserve one of the limited spots, you will immediately receive your first Money Calendar with eight Payday Appointments.

Your Membership includes a 100% Money-Back Guarantee!

If at any time over the next 60 days you don't like what you see, simply contact my team and you will receive a complete refund of your membership and owe nothing more.

They could make you \$15,000 richer right out of the gate.

But that's just a taste of things to come. My goal is to help you become a multi-millionaire.

It happened for me. And I'm confident it can happen for you as well.

To get started, simply take a few moments to fill out the short membership form below.

Or if you prefer, you can call our VIP Concierge Service at **888-384-8339** or **443-353-4519** (international).

I look forward to working with you.

To Your Success,

Tom Gentile
