

Stack 1

Group 5

Set 4

Now, let me show you the **Triple-V Trade Protocol** in action earlier this month.

Here it is monitoring our 100 stocks...

And boom.

It spots a 300% volume spike. In this case, the stock is **Fortune Brands**...

MIKE: And it looks like Fortune Brands is hitting a high of \$51 on the day of the volume spike.

TOM: Good eye, Mike. Yes. And here we go. The very next day, Fortune Brands hits \$52.

MIKE: That gives you your **Vector confirmation**.

TOM: Yep.

We've now confirmed that Fortune Brands is moving up with enough force to make a tradeable run.

And because it happened within our five-day window, the trade is on.

We issued a special trade on the first of the month. **And just two days later, on the third of the month, we exited with a 187% win.**

MIKE: **Good enough to shear \$4,675 right off the top.**

TOM: Yep. Let me show you another.

Here's the **Triple-V Trade Protocol** monitoring the market.

And it spots a 300% volume surge in Lab Corp.

MIKE: And there's Lab Corp. giving you the **Vector confirmation** the next day.

TOM: Right. And because it happened within five days, we also have our **Velocity confirmation**.

MIKE: So the trade is on.

TOM: Yes. And we issue our special trade. **And a few days later, we close it out for a 164% gain.**

MIKE: **Good enough to pocket \$4,100.**

TOM: Yep. Let's do one more. **Here's Triple-V spotting a 300% volume surge in CarMax...**

MIKE: The next day, you get both your **Vector and Velocity confirmations**.

TOM: So we issue our special trade.

MIKE: And cash out for a **268% gain**.

TOM: That's right. That's good enough to shear **\$6,700 right off the top of the market**.

And Mike, keep in mind, we aren't trying to uncover the next home-run stock. The next Google, or whatever.

We are simply trying to do what the high-frequency traders do...

**Use our technological advantage to squeeze out the easy money.**

With one difference.

While the high-frequency traders are grinding for pennies...

**We're looking to double, triple, even quadruple our money... over and over again.**

MIKE: And this is all done by the trading algorithm?

TOM: Exactly. The algorithm is built on extensive testing, and my 25 years of volume trading is also incorporated.

The great part is **the Triple-V Trade Protocol monitors the stock in real time, I'm talking volume, price action, highs, lows, everything.**

If at any time the trade veers off our anticipated course – for any reason – the Triple-V Trade Protocol picks up the deviation and is designed to instruct us to get out of the trade.

MIKE: In other words, you want to target a "sure thing" before you play.

TOM: Yeah, because with seven to eight opportunities to choose from every week, we only want the highest reward with the lowest risk.

**We only take what we consider the best trades and leave the rest for others.**

MIKE: The cream of the crop. And you can do it with **94% accuracy**.

Tom, this is incredible.

And look, you've made millions for yourself.

At the same time, you've helped scores of regular folks amass fortunes.

Tom, people love you. With good reason.

And today, you're announcing a new opportunity that could be the highlight of your career.

TOM: That's right, Mike.

**Today, I'm launching a new research service called the V3 Trader...**

**TRADER**  
WITH TOM GENTILE

And Mike...

**I've got one objective: to give ordinary folks an easy way to build wealth fast. I want to give folks a shot at pocketing \$15,000, \$20,000, even \$30,000 a month.**

MIKE: And at the same time, you're going to show us how people could **turn \$5,000 into \$2.2 million in a year's time...**

TOM: Without risking a penny of their initial capital.

MIKE: And Tom, you insisted we make this opportunity affordable to anyone.

TOM: That's right, Mike. And the reason is simple: When I started out, I didn't have a lot of money. I know what it's like to struggle. I don't want price standing in the way.

If people want to change their financial destiny, I want to put the power of **V3 Trader** at their disposal.

MIKE: That's great. And anyone can do this?

TOM: Absolutely. **You don't need any special training. And you don't need a lot of money to invest. Folks can get started with a modest \$500 if they choose.**

But here's the thing...

The trades we're going to be recommending are the elite – the cream of the crop. And we want our members to be the cream of the crop as well...

**That's why I'm going to limit enrollment to 500 people today.**

MIKE: Tom, we invited over 2.2 million people to watch us today.

And – look, these are smart people who I'm sure like to make money – so I'm betting most of them will want to give this a try.

But with only 500 spots available today, how are you going to decide who gets a spot?

TOM: First come, first served. This is for people who are ready to stake their claim.

MIKE: Can you tell us what folks can expect when joining **V3 Trader**?

TOM: I'd love to, Mike. And let me start off by saying, the **V3 Trader** experience is going to be a *heckuva* lot of fun.

Because, listen, the backdrop to it all is an opportunity for a DAILY FEAST of trading activity.

MIKE: So members will see a trade recommendation every day?

TOM: Mike, look at the frenzy back there.

Trillions of dollars up for grabs. And we're going to tap into it for big, fast action every single day the markets are open.

Now, some weeks, we'll have a trade recommendation every single day. Other weeks, we may have a couple of plays. But getting in and out of the trades is only a small part of the **V3 Trader** game.

MIKE: So how exactly will things will play out, Tom?

TOM: Every day of the week, the Triple-V Trade Protocol will monitor our **100 select companies.**

It's going to be watching for volume spikes that exceed **300% of average daily volume.**

Once it isolates a 300% surge, **Triple-V will track the stock for a Vector and Velocity confirmation.**

If we get the confirmation within five days of the initial volume spike, it's game on...

**Triple-V's proprietary algorithm will evaluate all factors, analyze the reward-to-risk ratio, and generate an entry price, a target price, and a set of strict exit parameters.**

At that point, I'll step in and use my 25 years' experience as a professional trader to fine tune the play and confirm the trade recommendation.

Then I'll send my analysis and specific trading instructions to our **V3 Traders** via email.

MIKE: Sounds like a finely tuned, well-oiled machine.

TOM: **It's seamless**, Mike. And in addition to the trade recommendation, I'll also send a complete breakdown of the opportunity.

That way, **readers will see the whole process unfold from volume spike to trade confirmation signals.**

They'll also see our exit parameters and our target price.

Members can then review the information and, if it's right for them, they can simply call their broker or enter the trade themselves online or via phone.

MIKE: And Tom, trading opportunities are only part of the experience...

TOM: That's right. Every day, we are going to be monitoring 100 stocks, analyzing volume spikes, reviewing our watch list, and tracking our active trade recommendations.

And every day, we'll send readers our **Daily Trading-Action Video**, so they can see exactly what's happening and what to expect next.

Of course, my team and I will monitor each and every trade recommendation.

**And when the time comes to close out the trade and take any profits, we'll send notice to their email or smartphone.**

MIKE: It's like paint by numbers. I can see how the wins could add up fast.

How much can people expect to make as **V3 Traders**?

TOM: Mike, that's the best part. And I've decided to do something I've never done before. In fact, I've never seen anything like this.

We're going to run a **two-tier trading platform** for our V3 members.

MIKE: Kind of like two services for the price of one?

TOM: Yes. And this is very exciting. Let me show you how it will work.

**First, members will get a daily feast of activity.**

We'll be in touch with them every day the markets are open.

I'll let them know about any volume spikes we've spotted...

I'll let them know about stocks on our watch list...

I'll update them on active plays we've initiated. And, of course, I'll let them know about any new trades we're targeting.

And listen: Every week will be a whole new experience.

**Some weeks, members will see a recommendation every single day.**

Other weeks, they might only see one or two.

**My goal is to give readers at least 200 trading opportunities in the next 12 months, each offering a chance to double your money.**

MIKE: 200 shots to double your money... that could end up generating huge wealth.

TOM: Absolutely. And remember, these are elite plays. We're zeroing in on the easy pickings. **The accuracy rate is 94%** This is a real chance for ordinary folks to amass a fortune while helping to keep risk to a strict minimum.

And that's just the first trading tier of **V3 Trader**...

MIKE: Tell us about the **second trading tier**.

TOM: Mike, this is something I've wanted to do for a long time, and **V3 Trader** is the ideal way to make it happen.

Have you ever heard the Nick Darvas story?

MIKE: He was the professional dancer – an amateur trader – who made \$2.2 million in just over a year's time.

TOM: Right. Mike, the guy made trades out of his hotel room!

And he's the perfect example of a novice, an amateur, making big money.

**I want to give my readers a chance to amass \$2.2 million in the next 12 months.**

MIKE: And you want folks to do it without risking a dime of initial capital.

TOM: That's the key, Mike. Look, Darvas would take all his winnings and roll every penny into the next trade. And then he'd roll those winnings into the next trade. Every penny, over and over...

MIKE: So, in other words, he turned \$5,000 into \$10,000. And then turned \$10,000 into \$20,000. And then \$20,000 into \$40,000...

TOM: And \$40,000 into \$80,000 and \$80,000 into \$160,000...

MIKE: And on and on until he hit **\$2.2 million**.

TOM: Right. And, look, it didn't take him long. But I think that strategy of rolling up your trades is risky. **I would never suggest anyone risk every penny of their capital that way.**

So, I'm taking Darvas's concept, and altering it a bit for **V3 Traders**...

**I call it my V3 Trader Monthly Double-Down.**

Here's how it works...

Every month, I'm going to take a special trading opportunity, and make it available to my **V3 Traders**.

MIKE: This will be in addition to the daily trading activity.

TOM: Yes. **Once a month, I'll give folks a Double-Down trade that I believe has outsized potential to triple or even quadruple your money or more...**

Here's what I'm suggesting.

Folks take a small portion of their winnings from the regular **V3** trades we'll be monitoring daily.

Maybe \$2,500 or \$5,000 of their winnings, or whatever they feel is "play money."

After all, they are in control of their own destiny.

But I suggest they roll that into my **Monthly Double-Down** trade recommendation.

MIKE: So they'd leave their initial capital alone, out of harm's way.

TOM: That's right. I don't want anyone doubling down with initial capital.

I want them to take some of their winnings – whatever feels comfortable – and put it into the **Monthly Double-Down** plays.

And then I want them to do what Darvas did.

I want them to roll the winnings over, at whatever level they're comfortable with.

MIKE: That could really add up fast, Tom.

TOM: Now remember, Mike, we're going to be making lots of trades in the first tier of the platform.

But these are extra trades. And take a look at how the winnings could multiply fast.

Let's start in January 2019...

MIKE: Kicking off the New Year.

TOM: Right. And **let's say you put \$2,500 into Celgene**. It hit a 114% gain, Mike.

Suddenly, **your \$2,500 is worth \$5,350...**

The next month, let's say you put your **\$5,350 into Lam Research...** a 445% winner.

Suddenly, you're up to **\$29,157...**

MIKE: And you just keep rolling?

TOM: You don't even have to do that.

To be more conservative, let's take a chunk of the profit off the table and run with \$20,000.

And let's say if we can put that **\$20,000 into Coty... a 712% winner...**

Mike, now **you could be sitting on \$162,400.**

MIKE: I see what you mean, Tom.

This is adding up fast.

TOM: And let's say you take a big chunk of that off the table...

And if we could put **\$100,000** into your next play, Extra Space Storage... a 617% winner...

Now, you're being more conservative by taking a big chunk of money off the table...

But you've also now got **\$717,000**.

MIKE: Incredible.

TOM: And, Mike, let's just go ahead and pull half of that back.

And let's say if you can put half – **\$350,000** – into our next play, Constellation Brands, a 387% winner.

Mike, at this point, we're only five trades in. This has all happened between January and April! **And you could be sitting on \$1.7 million.**

Plus, you've got another **\$400,000 that you've stuck in the bank for safe keeping.**

Imagine what your trading account could look like by year's end...

MIKE: I mean, **you could be sitting on \$2.2 million fast.**

TOM: And you'd be doing it without risking a penny of initial capital.

MIKE: Plus, you've pulled money off the table every step of the way.

TOM: Point is, **V3 Trader** members will have **two tiers.**

**Our standard plays offering 200 shots to see big double-your-money gains in the next 12 months...PLUS the Monthly DOUBLE-DOWN plays that could turn \$5,000 into \$2.2 million in a year's time.**

MIKE: Tom, that blows me away. I mean, this is an unprecedented opportunity.

Now, you and I discussed exactly how much extra to charge for the second trading tier, the **Monthly Double-Down** trades.

And Tom, I told you I felt an extra \$5,000 a year for the **Monthly Double-Down** trades would be a bargain.

TOM: And Mike, you're right. Even \$10,000 would be a bargain for these extra trades.

But I really want to make this affordable for anyone who's ready to claim their shot at serious wealth.

**So the first 500 folks who secure a V3 Trader spot today will get the Double-Down trades free, no extra charge.**

MIKE: Tom, that is beyond generous.

I mean, with the opportunity we are seeing today, that's almost like gift wrapping \$1 million and handing it over to the first 500 people who join **V3 Trader** today.

TOM: Mike, it is. And we're just getting started.

There's so much more that comes with being a part of **V3 Trader.**

In addition to all that daily trading activity, as well as the **Monthly Double-Down** plays...

We're going to give folks our **V3 Fast-Start Video Series.**

Now Mike, this is based on my 25-year career as a trader.

I've taken everything I know and broken it into a series of five videos.

Folks will learn exactly how easy it can be to exploit trading volume for a shot at doubling or tripling their money, over and over again...

MIKE: Priceless.

TOM: And there's more...

I'm also including **the V3 Octagon**...

As a member, you'll step inside my mind as my team and I show you how to trade live... once a week.

You'll pick up little tricks and internalize the mindset of a trader.

Plus, you'll get **V3 Debriefings**, where we analyze the trading session and break down the strategy we used.

And remember, as a member, **you'll be getting up to five trading opportunities every week**, so you can use these tactics yourself in real time.

MIKE: You're right.

This is not only lucrative; it sounds like a lot of fun.

TOM: It's a blast.

And listen, I want my **V3 Traders** to be able to share information and insights so they can grow.

That's why we're going to create a **V3 Forum**.

Every day of the week, our **V3 Traders** can go online to connect with other **V3 Traders**, share breaking information, talk strategy, even boast about winning plays.

MIKE: A gathering place for the elite.

TOM: And it gets better, because in addition to the **V3 Trader's Forum**, we're going to conduct an annual **V3 Summit**.

This is a chance for our **V3 Traders** to meet in person and bond over success.

Finally, there's no substitute for direct feedback.

And that's why we're setting up the **V3 Hotline**.

Think of it as a direct line to me and my team, a way for you to get your most popular trading questions answered fast.

MIKE: Tom, this is absolutely incredible.

Let me summarize.

Folks get a frenzy of daily trading activity, including recommendations that offer shots to double their money.

## They get...

- The V3 Fast-Start Video Series.
- The V3 Octagon.
- The V3 Forum.
- The V3 Hotline.
- The V3 Summits.

Now I'm sure folks are wondering how much this is going to cost... because when you look at everything people get, I'm thinking \$25,000 a year would be a fair price.

But like you said earlier, Tom, we want the **V3 Trader** experience to be available to anyone and everyone who moves fast today.

So the price is not going to be \$25,000.

Or even \$15,000.

It's not going to even be \$10,000.

Folks who subscribe now, while spots last, can take advantage of our entire research service for a very reasonable price. It's so reasonable in fact that *you could pay for this three times over on the very first trade.*

**And keep in mind, the first 500 folks who join V3 Trader today will get Tom's second trading tier, the Monthly Double-Down trades, absolutely free.**

But again, we have 2.2 million **Money Morning** readers, and with **only 500 spots** available today, I'm sure this will be a sell-out fast.

So, we want to make it really easy for folks to seize this once-in-a-lifetime opportunity.

TOM: Right, Mike. That's why I'm offering a Two-Tier Guarantee that **makes this a complete no-brainer**.

Guarantee Part One: Go ahead and secure your spot as a **V3 Trader** today.

If at any time during the next 90 days you're not completely delighted with the trading recommendations, analyses, gains, or anything else about **V3 Trader**...

Simply let my team know by phone or email, and we'll promptly refund every penny of your subscription price.

No questions asked.

And here's Guarantee Part Two...

Over the next 12 months, I guarantee to give you at least 200 trading recommendations, each will have the power to double your money.

In addition, I promise to give you at least 12 **Monthly Double-Down** trades with the potential to triple or even quadruple your money fast.

MIKE: **So Tom, in other words, folks will get at least 200 trade recommendations in the coming year, plus an additional 12 Double-Down plays.**

TOM: Exactly. And if they don't get everything I'm promising in a year's time, all they need to do is contact my VIP Concierge team...

And I'll give you another year absolutely free. No questions asked.

MIKE: Of course, Tom, to make that kind of guarantee, you must be absolutely confident you can make your new **V3 Traders** very, very rich.

Because, when you factor in the daily trading activity...

The **200 trades** folks will get, each with double-your-money potential...

And you consider the flood of **Monthly Double-Down plays**...

Opportunities that **could turn \$5,000 into \$2.2 million**...

Well, when you factor it all in, I'm confident you're gonna make it happen.

Because Tom, you always deliver on your promises.

TOM: Thanks, Mike. This means a lot to me, and I won't stop until folks are 100% thrilled.

MIKE: But please understand: **This is strictly limited.**

Again, because of the nature of this opportunity, I can only open it up for 500 people today.

First come, first served.

If you're ready to turn the volume phenomenon into what can be your own personal wealth-building machine... hit the "Join Us Now" button below.

Tom, this really is an incredible offer.

Thanks so much for being here.

And we'll check in with you soon.

Folks, listen: **This is truly an unprecedented opportunity.**

In fact, the opportunity is so enormous, Tom has implemented two trading tiers, both loaded with recommendations, into his service.

**It's like getting two premium-level services, all in one.**

Not only is it a chance to experience the excitement of daily trading activity, every single day of the week for the next 12 months...

But it's also a chance to turn a modest **\$5,000 into \$2.2 million** in a year's time, without risking a penny of your initial capital.

That's Tom's promise to you.

Imagine starting tomorrow with **V3 Trader** and waking up in a year's time with over \$2.2 million in your account.

That's the potential at hand.

But we can only hold this open to **500 people today**.

First come – first served.

Hit the "Join Us Now" button below.

You'll be taken to a secure page where you can review everything you'll get as a **V3 Trader**.

If you have any questions about the service and how it will work for you, I encourage you to contact our reliable customer service team at 855-509-6600 or 443-353-4770 (for international calls) and mention Priority Code: WV3TV770.

But please remember: The 500 spots available today are going to go fast.

**Hesitating could cost you your shot at millions.**

And remember: With Tom's guarantee in place, this is a real no-brainer you can't afford to miss.

I'm Mike Ward.

From Tom Gentile and all of us here at **Money Morning**, thanks for watching and have a great day.
