And many more

Crowd Search originally launched in January 2015 and has been one of the most talked about and highly reviewed products to ever hit SEO.

Andy Black, Software developer and SEO Expert

One particular ranking factor that Google appears to be placing more weight on in recent months is user search behavior, clickthru rate and dwell time. It is one ranking factor that they can monitor FULL metrics for and it links in directly with their full user base.

Whatever SEO techniques you carry out for your sites, add CrowdSearch to your toolbox. It's certainly a "must have" for mine!

JohnChow.com, Blogger, speaker and entrepreneur

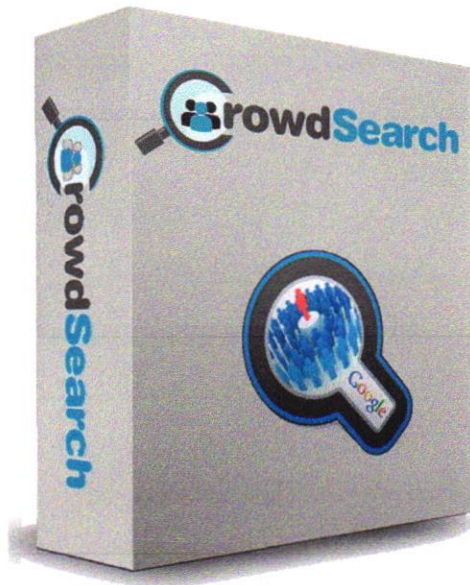

Let's say Mary is shopping for a new camera. She goes into Google and searches for "best digital camera." She clicks on the 5th website on the results page and hangs around that website for a period of time reading the information. Chances are that website fulfilled her needs. Now imagine if thousands of people did exactly the same thing.

Google now has "proof" that this website is relevant and useful, so it bumps that website higher up in the rankings. At its core, this is the paradigm that CrowdSearch is leveraging.

The Doors Have Been Closed for 1 Year While We Grew The Network and Improved The Features, and now...

We have grown the Search Army from 120,0009 Real People

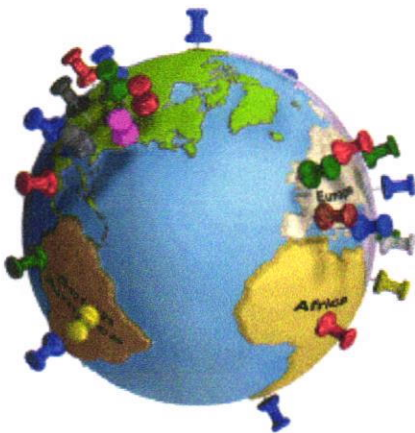

"CrowdSearch is a Cloud based Platform which allows you to Enter Your Website & Keywords so that the Crowd Search Army Can **Organically Search** For Your Site and Boost Your Rank"

Now With Geo Targeted Search

Have a local business in Miami, Florida and want searches from that area? Not a problem.

Run an Australian Cosmetic Dentistry business and only want Aussie searches? We've got ya covered.

Target Multiple Countries, States, & Cities With Ease.

Finally, you have the opportunity to become one of the few marketers who has an unfair advantage over your competition with this One of a Kind Search Engine Ranking Powerhouse.

If you currently have anything to do with ranking websites and videos online or you would like to start you Will Need Crowd Search technology as part of your strategy in order to beat your competition.

In SECONDS, Easily Create Your First Campaign and Start Boosting Your Rankings to The First Page of Google.

So How Does It Work?

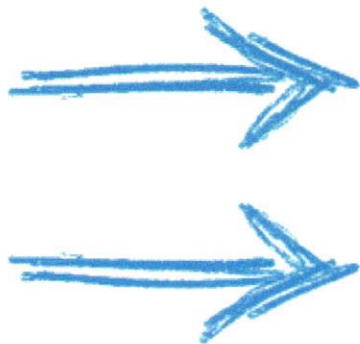

Improve Search Rankings

CrowdSearch Lets Google Know To Rank Your Website Higher. For example, if your keyword is "Blue Widgets" and your website is currently in the 59th position of Google's organic search index for that keyword, by searching for that keyword, finding your site in the 59th position, visiting your site and then spending a significant amount of time browsing your site and clicking internal links, this shows Google that people value your content for that search phrase. **Google places a lot of authority on who's getting visited for specific search phrases.**

| Sounds Interesting. But isn't that Just Theory?

Just look at what was Leaked From a Former Google Search Engineer

**Danny Sullivan** ✓

Follow

Google confirms watching clicks to evaluate results quality. FYI Google still won't say if clicks used as rank signal

In addition, click data (the website links on which a user actually clicks) is important for evaluating the quality of the search results page. As Google's former chief of search quality Udi Manber testified:

The ranking itself is affected by the click data. If we discover that, for a particular query, hypothetically, 80 percent of people click on Result No. 2 and only 10 percent click on Result No. 1, after a while we figure out, well, probably Result 2 is the one people want. So we'll switch it.⁵⁷

Testimony from Sergey Brin and Eric Schmidt confirms that click data is important for many purposes, including, most importantly, providing "feedback" on whether Google's search algorithms are offering its users high quality results.⁵⁸

CrowdSearch Feature Breakdown

Crowdsourcing

Over 500,000 Searchers Assigned Cloud Based Tasks to Search and Find Your Website using Real Devices from iPads to PCs to Android Smart Phones.

Dwell Time

Every time someone from the Crowd Search Army visits your website they will spend up to 15 minutes randomly browsing and scrolling through your inner pages

Geo Targeting

Target by multiple Countries, States, and Cities. Dominating Local Search Areas Has Never Been More Powerful

Private

Anything You Enter into CrowdSearch is kept 100% Private and Safe from the search army so you can rest easy knowing your information is safe from any prying eyes

Twitter Retweets

Easily Drip Feed Twitter Retweets and Favorites to any campaign to Boost Your Social Signals and Show The Search Engines Your Site is Important.

Facebook Signals

Let the CrowdSearch Army add Likes and Shares to your campaigns to Boost Your Sites Authority and Help Rank You Higher

Link Fuel

CrowdSearch makes backlinks more powerful by searchers simply clicking on the links which lead to your main site.

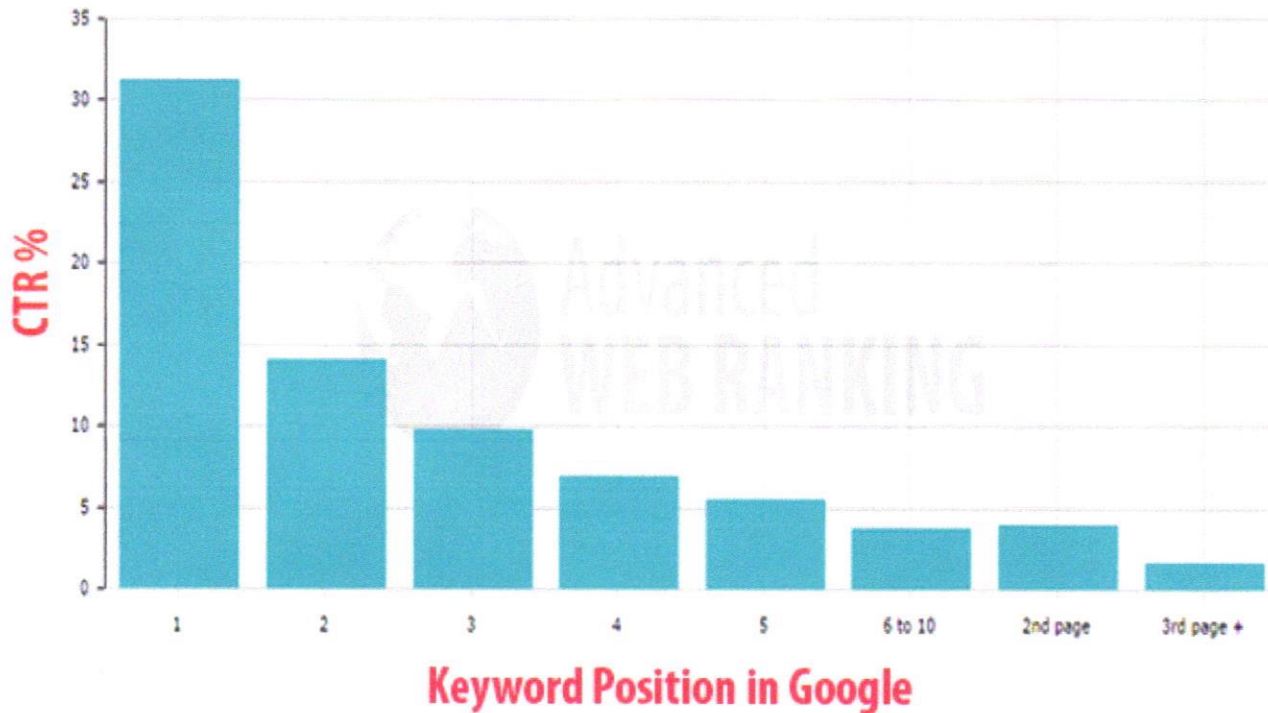

Google Safe

No more being afraid of the next Google Update. These Are Real People Conducting Real Searches. It doesn't get any safer than this!

Uses SmartRank™ Technology

Our Advanced Algorithm first determines your current keyword position in Google. It then looks at the overall search volume for this keyword and determines the perfect # of searches and dwell time required to boost you up higher. The system constantly evaluates your keyword position and adjusts to keep boosting you up higher. **And it does this all Automatically!**

Search Engines	Start	Current	Week	Month
	20	1 C	20	20
	7	2 C	7	7
	7	7 C	7	7
	1	1 C	1	1

Built in Daily Keyword Tracking

Track Your Keyword Rank Movement Directly within your dashboard **Included** with your CrowdSearch

Account. **Similar Keyword Ranking Software Would Cost You Just As much for the price of CrowdSearch alone!**

Tracks Google, Bing, Yahoo, & YouTube. Keyword Rank is Highly Accurate, Updated Every 24 Hours, and Tracked Weekly & Monthly!

Keyword Finder Technology

How would you like to know all the URLs and Keywords That Your Site Already Ranks For?

Keyword Finder is able to scan the search engines to find which Keywords you are already ranked for and simultaneously turn that into a CrowdSearch campaign so you can receive **automatic traffic to Boost it even higher!**

You like this.

[View 5 more comments](#)

Cordel EJ Cook I'm using it. It pushed one of my vids from page 3 to page 2 in organic already. Seems to do what it says so far. It's a good compliment to SRS.

5 hrs · [Like](#) · 1

Rex Madden Whoa Heather, you go, you sure have been listening. You sound like a pro now compared to just six months ago.

43 mins · [Like](#)

Damon Nelson It's working and one of the side benefits is that other blog posts and pages beyond just the home page are being ranked. It's slowly moving videos and site URL's up the rankings on more competitive keywords with no extra effort. The only downside is the credit package needs to be bigger if you have multiple videos and sites that you need to rank.

I have to give a thumbs up to Anthony for this recommendation.

Re: [CLOSED] CROWD SEARCH Optimization Pre-Launch! Unfair Google Rankings | Great Reviews

I have tested this on numerous websites which have been stuck in the SERPs for numerous keywords despite significant monthly SEO spends on links. One particular website experienced huge gains within Google. My main keyword went from Position 54 to Position 8 practically overnight!! (No other SEO activity since end November.) I highly recommend this tool which I will be continuing to use for my websites.

You would be mad to miss out, this is a game changer! Just view the result below!

**Johnny Chen**

6 hrs

90 days in OMG.

4 weeks of crowdsearch.me using geolocation+ smart rank.

No PBN's yet.

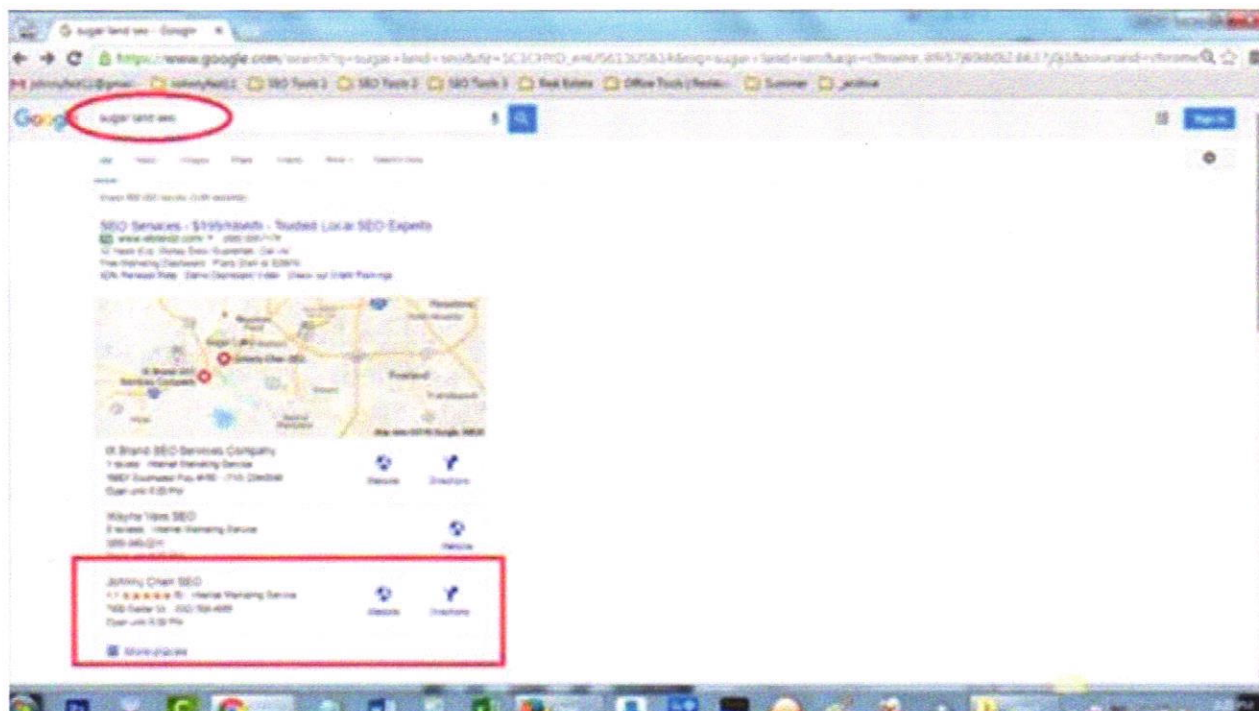

and I am #3 on map pack.

Organic position #54.

Normally I shouldn't be on the map pack at all but i guess the geolocation on crowdsearch.me is really really really powerful.

I am feeling the force conjuring within me and growing each minute I grind through the videos.

I will be expecting some movements up or down very soon as I am building my PBN's at this moment as we speak.

We have been using Crowd Search for about 4 months and I can honestly say we have reaped the benefit in the ranking because of this tool. Many of our blog post and Videos were stuck in Google purgatory "Page 2" and no matter how many links we built they would never move up in the rankings. I started running some campaigns to these videos and blog post and notice they began climbing within a few days and now **I have multiple posts and videos on page 1 because of this!** Now when we add a blog post or video we automatically add a crowdsearch.me campaign to it as well to give it that little boost that it needs. If you are serious about doing white hat SEO and are looking for long-term rankings I would recommend purchasing crowdsearch and start getting the results that you deserve!

In early December 2014, I started trying out this new crowdsearching service from Dan Anton on a neglected site of mine in a blogging sub-niche that was getting no other SEO work.

Here are my results so far and I have excluded brand results here as nobody would be searching for the brand of this affiliate site:

(5400 monthly searches, rankings improvement from #51 to #31):

Campaign Information

Start Date: 2014-12-08 01:12:03
 Starting Rank: **51**
 Current Rank: **31**
 Credits Spent Today: **0**
 Credits Spent Yesterday: **15**
 Total Credit Spent This Month: **44**
 Total Credit Spent: **422**

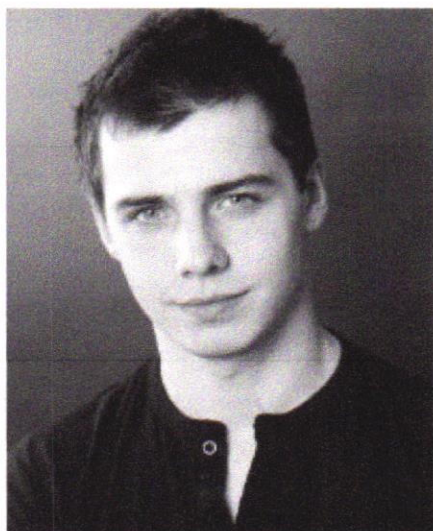

Keyword Search Volume: **5400** ?

(2400 monthly searches, rankings improvement from #41 to #17):

Campaign Information

Start Date: 2014-12-08 01:12:20
 Starting-Rank: **41**
 Current Rank: **17**
 Credits Spent Today: **3**
 Credits Spent Yesterday: **15**
 Total Credit Spent This Month: **51**
 Total Credit Spent: **434**

Keyword Search Volume: **2400** ?

After just 10 days of using crowd search, my ranking went from 47 to 21, and has been climbing consistently ever since.

If you're an SEO expert or just want your sites and pages to rank higher for your keywords, you owe it to the success of your business to get CrowdSearch.

If you've been keeping track of what's going on in the SEO world today, you know that click-thru-rate is the #1 ranking signal search engines are using today to rank your website...

If you want to rank high nowadays in the search engines, you must give CrowdSearch a try, you can't rank well without it anymore.

David P. Entrepreneur and SEO Marketer

Starting Rank: **14**

Current Rank: **5**

The proof is in the results and once I saw this take my **rank from 14 to 5 in a matter of weeks** I became a believer. I've since added even more campaigns and the results are looking just as impressive. Keep up the great work. You've got a lifelong member with me.

Dan Anton hooked me up with an account and it is still early days but I'm -FINALLY- seeing some REAL positive ranking movement in a niche where 'doing SEO' has proven me difficult (I have tried various PBN's and other stuff and none of it worked or even worked against me).

And right now besides crowdsearch.me I'm not doing anything else for SEO. I'm generally a pretty skeptic guy but if you have an SEO list I'd contact Dan to test it for yourself a bit and plan this launch to promote!

Fantastic!

Thank you very much for your help getting this resolved...

This seo tool is nothing like I have ever seen before in terms of results...

In just 12 days my url has gone from position 41 to position 27 for my keyword... CRAZY!

Now that this issue is resolved and I know this tool is working at 100% I am going to add many more campaigns and start to ramp this baby up...

I'll periodically update you guys with my results to keep you updated...

Thanks again for all your great help!

David

Robert Jacques I've been using <http://crowdsearch.me> for the last 3 weeks. (I think the owner is in this group). It sounds crazy but I've gone from 73 to 21 with nothing else being done.

Love the service and results you provide. I just purchased 2k more credits and will be scaling here over the next few weeks and months.

Can you make sure that the 3k credits just purchased are credited to my crowdsearch.me account.

Re: [NEW] CROWD SEARCH Optimization Pre-Launch! Unfair Google Rankings | 68/100 Slots Left |

I just wanted to share my results with this system...

I got in when Dan did an early pre-launch and I have been using for about 5 weeks now.

I have seen awesome results for YouTube videos.

As for websites, I focus mainly on local SEO sites (lead gen and/or client sites) and have been really conservative with the amount of searches I assign since I do not want to raise a red flag for an unnatural amount of search queries.

As such, I have seen modest gains in website rankings. Certainly notable gains, just modest when compared to the gains my YT videos have made.

I think Dan is onto something here and will continue to use this service as I know a good CTR gives a site more "weight" and adds to the overall quality score of a site.

Thanks Dan!

Re: [LAST DAY] CROWD SEARCH Optimization Pre-Launch! Unfair Google Rankings | Great Reviews

My testing keyword went from 9 to 6 so far and this is for a term that has probably been stuck at 9 for at least 2 months. So far so good. Going to add more campaigns and keep testing.

Re: [CLOSED] CROWD SEARCH Optimization Pre-Launch! Unfair Google Rankings | Great Reviews

I thought If this works so well, I have to give it a try.

So I tested the platform on about 10+ different sites, YouTube vids and PressReleases.

The results were just amazing.

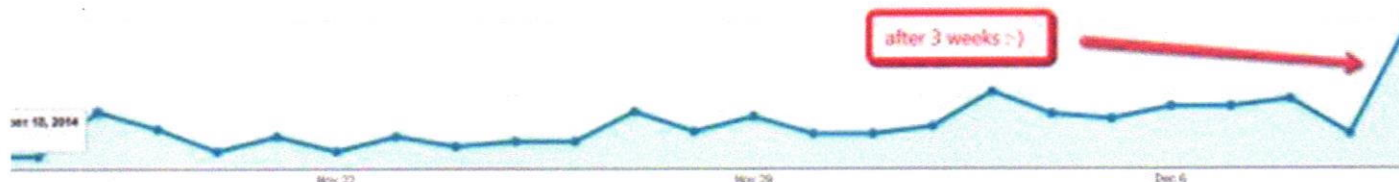

Got several rank improvements. Mostly the results came in around 3 weeks after.

Just see below one of my sites. I didn't built any backlinks... just used the CrowdSearch platform on this site 😊

■ Crowd Search Results ■

Just wanted to share that I experimented with using crowdsearch dot me over the past 30 days for a client of mine and have seen awesome localized organic results.

Competition? What Competition?

Type	Proxies / VPN	Tor	PandaBot	CrowdSearch
Description	 A network of computers that reside in data centers	 A small and slow network of computers that reside at random places	 Network of proxies/vpns and a very small # of real users hiding behind a custom browser easily detectable	 A Unique Cloud Network of Real Users on Real Devices
Size	 Small 1,000s of nodes	 Medium ~20,000	 Very Small Less Than 100-200 real people online at any given time; usually hiding behind proxies	 Over 500,000 Real People Real Devices
Geo Targeting?	 Possible but time intensive	 Not without technical knowledge	 Not Possible	 Target Many Countries and Cities
Risk of Using	 Very High Risk Google Will Detect This	 Moderate Risk Google Will Detect This	 Moderately High Risk Google Will Detect This	 Impossible to Detect
Value	 Expensive and will most certainly damage your rankings	 Free but extremely slow and limited	 Ok Value For Budget Shoppers Willing to Accept Risk	 Best Value and Offers Free Daily Keyword Tracking

Frequently Asked Questions

Do I Need Any Technical Knowledge?

Not at all. This is a cloud based Web Application on our Servers. We integrated everything into an easy to use dashboard where all you need to do is enter the Website URL and the Keyword you want to rank higher.

Is This Safe?

Absolutely! These are real people conducting actual searches in Google in order to find your website and then click the search listing. This is the equivalent of you being able to call up thousands of people on the phone and ask them to please do a search for a keyword in Google, look through the pages until they found your website, click on it, and then browse it for a few minutes.

How Long Will It Take My Site To Rank In Google?

There is never a simple answer to that question. Some sites will start seeing results in the first week and others may take longer depending on the keyword competition. This is a system we have used for our own sites privately and it always gives us great results.

Should This Replace Backlinking?

The short answer is no. Backlinks are still a very important part of ranking websites and we advise you to still continue building high quality backlinks. When you combine the power of CrowdSearch.Me with high quality link building you have an unstoppable combination that your competition cannot
