Rating Explanation

The rating is based on a complex formula comprised of many different factors such as the type of business, length of time in business, licensing compliance, complaint history, and our overall experience with a company's industry in general. The scoring system takes into account the importance we feel each factor is to the company's reliability.

The general factors that impact your rating are:

- **Background Information** - this factor considers whether or not important details of business ownership and operation have been provided to us by the company.
- **Length of Time in Business** - this factor reflects a business's ability to successfully operate through economic business cycles and is an indicator of a business's probability of success and therefore its reliability.
- **Complaint History** - this factor takes into account the volume, history, and type of complaints as well as our evaluation of the relative seriousness of these complaints.
- **Type of Business** - certain industries, especially those we deem problematic, are inherently susceptible to greater numbers of consumer complaints. BCA assigns a value to all businesses based on our long history dealing with thousands of different industries.
- **Licensing Information** - this factor verifies compliance with competency licensing requirements. It does not include non-competency type licensing that are simply a form of taxation, such as city business licenses.
- **Government Actions** - this factor weighs the seriousness of regulatory actions that are relevant to a business's reliability.
- **Advertising Review** - this factor addresses concerns with a company's advertising practices and the company's efforts to mitigate these concerns.

Our ratings do not take into account:

- The number of times a report has been accessed.
- A business owner's gender, race, religion, whether the business owns or leases its location, or the geographic location of a business.
- Complaints that BCA does not process because they're outside of our purview.

Our rating of a company and our BCA Report on a company reflect our conclusions and opinion about the company based upon information in our files and our experience with the company. Neither the rating nor the report is a guarantee of reliability. Readers should not rely solely upon a company's rating, but should read and consider the entire report, including consumer reviews and complaint and response details before deciding whether or not to do business with the company. The highest rating assigned to a company is AAA; the lowest is F. Between those two ratings are nine others in order from highest to lowest rating.

The ratings are defined as follows:

AAA	An exemplary rating. This means that nothing in our files causes us to have any doubt about the company's reliability.
AA	An extremely high rating. The condition that lowers this grade from AAA is not what we believe to be a significant one.
A	An excellent rating. A company with this rating may not rate higher because of a greater number of rate-lowering factors, but we do not consider them to be factors that would likely adversely affect consumer transactions.
BBB	A very high rating. A company with this rating would not have a significant number of complaints or other considerations that could pose a problem to consumers.
BB	A high rating. The company would generally have demonstrated good business-consumer relations, and we would expect any consumer complaints not to be of a serious nature and to be satisfactorily handled by the company.
B	A good rating that still implies reputability. The rating may relate to length of time in business, a past problem that's been corrected, or something else that does not cause problems for consumers. We believe a company with this

This is a scam. You might have two persons that know to do the service, but the rest is totally useful.

Related: Money Map Press - SCAM - Guarantee Misleading

I Asked for my money bak and they declined. Their track is hitting 2 out of 10 trades, but the two trades is not even that good.

Keep away from them it is not legit.

The zenith trading circle might be good and the welocity profits as well.

But most important keep away from the nighttrader. Thats BS.

It seems that they never do refunds either, and their customerservice is bad. Expensive club that you would get nothing out of.

The proclaimed best pattern trader in us is also in the subscription and his advices is really bad.

Keep away from them

Lost thousands with Night Trader on 8 out of 9 trades first month.

Complaint got me a credit to join Tom Gentile Weekly Money Call.

First trade from him lost 80%. Amazing how ring leader Keith Fritz-Gerald ends up on FBN on a regular basis.

MONEY MAP PRESS VERIFIED REPRESENTATIVE

Hi there,I wanted to thank you for taking the time to share your feedback regarding Money Map Press.With all trading services, no recommendation is guaranteed, as nothing involving securities is a sure thing. Due to the volatile trading nature of options, this is why we provide a 1-year guarantee with the majority of our option services.

We would be happy to go over the promotion and order form you used to sign up in order to clarify these policies.I am extremely sorry to hear about your experience, as we at Money Map Press take your satisfaction very seriously.

I will be forwarding your feedback to Chris and his team. I would be happy to answer any of your questions about our services, as well as review our exit strategies to ensure your success.If you have any questions or would like to share more about your experience with us, please feel free to do so at dholland@moneymappress.com.

MONEY MAP PRESS VERIFIED REPRESENTATIVE

Hi again, Bt.Bech_73,I would be happy to discuss your money back guarantee by email if you would like. We have different guarantees based on when you purchased the subscription.

So, in order to avoid any confusion with the other members of this website, would you mind emailing me directly at dholland@moneymappress.com?

This is the best way to determine your account status/renewal dates/guarantees, as I can subjectively and personally answer any questions you may have. Thank you so much for your patience!Dan

But you dont cancel anything. Thats why it is not thrustworthy.

Hopless customer service and they have no clue.

It is very sad!!!!I think the advicors are beaten up by the market an try to make some last bucks. Very dissapointing.

Hi Bjorn,Would you please contact me by email? I can certainly help you if you'd like.

Again, my email address is
dholland@moneymappress.com. I specialize in conflict resolution and would be more than happy to help. We could have this issue resolved by the end of the day if you have the time.

Like I said in the previous post, each promotion has a subjective refund policy, and I cannot make any blanket statements online. I am so sorry if this displeases you, but I promise I can inform you with the utmost clarity if you simply send me an email.Thanks so much!Dan

Why "MoneyMorning.com" Is Bullshit

You'll want to remember this date: [Insert some future date here, revise as necessary]

That's basically the premise behind [this bullshit story](https://moneymorning.com/ext/articles/rickards/25-year-great-depression.php) (<https://moneymorning.com/ext/articles/rickards/25-year-great-depression.php>) from [this bullshit website](https://moneymorning.com/) (<https://moneymorning.com/>) that uses bullshit to try and get you to [buy their bullshit financial advice](https://moneymappress.com/?_ga=2.54229672.1835350285.1499611219-1476718262.1499611219#subscription_services) (https://moneymappress.com/?_ga=2.54229672.1835350285.1499611219-1476718262.1499611219#subscription_services).

I've been watching this bullshit story progress for more than two years now. The "25-year Great Depression" was coming on May 24, 2015 (http://www.kenn.com/the_blog/wp-content/uploads/2015/10/prediction20150524.jpg), then July 15, 2015 (http://www.kenn.com/the_blog/wp-content/uploads/2015/10/prediction20150715.jpg), then April 9, 2016 (http://www.kenn.com/the_blog/wp-content/uploads/2015/10/prediction20160409.jpg) (inexplicably then postponed for just two days (http://www.kenn.com/the_blog/wp-content/uploads/2015/10/prediction20160411.jpg)), then June 19, 2016 (http://www.kenn.com/the_blog/wp-content/uploads/2017/07/prediction20160619.jpg), then October 13, 2016 (http://www.kenn.com/the_blog/wp-content/uploads/2017/07/prediction20161013.jpg), then December 15, 2016 (http://www.kenn.com/the_blog/wp-content/uploads/2017/07/prediction20161215.jpg), then September 21, 2017 (http://www.kenn.com/the_blog/wp-content/uploads/2017/07/prediction20170921.jpg), then October 7, 2017 (http://www.kenn.com/the_blog/wp-content/uploads/2017/07/prediction20171007.jpg), then November 2, 2017

(http://www.kenn.com/the_blog/wp-content/uploads/2017/07/prediction20171102.jpg).

Then it occurred to me what they're doing. Check out this code from the story in question:

```
<h1>CIA Insider Warns: "25-Year Great Depression is About to Strike America"</h1>
<p id="byline">By <strong style="text-decoration: underline; color: #456626;">MONEY MORNING STAFF REPORTS</strong></p>

<p>You will want to remember this date <!-- Put this script where you want the future date to appear -->
<script>
var n = 6; // How far in the future you want to go
var future = n.months().fromNow(); // Move the date into the future
var date = future.toString('MMMM d, yyyy'); // Format the date
document.write(date); // Output the date
</script></p>
```

(http://www.kenn.com/the_blog/wp-content/uploads/2017/07/money_morning_code.jpg)

The 25-year Great Depression is *always* going to be six months in the future, because they've set up a bit of script to take today's date and add six months to it.

It's bullshit. These people are bullshit. Don't listen to them.
