chad arrington - 12:05 PM

You still living downtown??? You know that I taught myself all the stuff I do right.... so did lauren.... u ever take
the time to build build build a skill and then sell yourself... I c the problem like people at agora want talent
already polished, unless u master your craft they never give u a real shot.

DENNIS MILBOURNE - 12:05 PM

yea im still downtown
i heard lauren left

chad arrington - 12:09 PM

she's a boss a aerotek engineering or something or alegis
yea make moves babyyyyyy!

DENNIS MILBOURNE - 12:09 PM

i wanted to learn more than production but never had the chance. katie was killing me

chad arrington - 12:10 PM

... think big picture...
did u go master your craft outside of agora walls
see i look at these guys as an opportunity to watch a million dollar company be run and how i can build my
own dreams
i've taken the initiative
i still watch people come here do half jobs and leave
want more money..
i study every night my craft
i invest in myself
i work 8 hours here 8 hours home
our generation gotta go take what they want

DENNIS MILBOURNE - 12:11 PM

so where should i start
kinda stuck trying to figure it out
im sitting here doing data entry at bayview.... killing me

chad arrington - 12:12 PM

GOOGLE. teach yourself what skills u want BRO. u worked here. Html, css, php you can teach yourself.
marketing you can teach yourself. Just gotta approach life like the word I DOESN'T GIVE A FUCK ABOUT
YOU AT ALL
life gotta kill you enough until you change it

DENNIS MILBOURNE - 12:12 PM

word

chad arrington - 12:12 PM

to get the results you've never had you gotta become the nigga youve never been
LOOK AT YOUR ENTIRE APPROACH
MINDSET
if you ain't changed why should your circumstances?
stay positive. make a plan
Get that goal!

DENNIS MILBOURNE - 12:14 PM

that's good advice man

chad arrington - 12:14 PM
