Since none of the domains have indexed yet.. I do believe its because they're missing the WordPress juice.. if so. We can keep that homepage the same. U can add the html to the new installation. Google xml sitemaps, wordpress seo plugins have to be installed. Then the promotion ive built will take hold. Im unfamiliar with platforms outside of wordpress as regards to indexing speed. If the site isnt showing by the monday morning let's delay Brets radio promo until the site is showing up in search. Weve gotta index the site before it will even matter for keywords. If yall install wordpress today ill go home n manually check the on page after I leave Disney. Have mm.com post 1 article targetting operation day after main keywords and link out to <http://operationdayafter.com> . Whatever you see fit just let me know. Wanted to try and write you some directions to help.

kathryn.anne.oconnell@gmail.com - 5:12 PM

yeah I'm working on that now

<http://moneymorning.com/operation-day-after-plan/>

in progress... having to hack a lot to get it looking right but my plan is to get it into MM. that is the page though so if you watn to start promoting it go for it

Chad Arrington - 5:19 PM

Ok I got that one too. Thanks. Glad I found out u aint have your phone. Ok ill be on it tnite. Halloween is over at 9 for the kids then ill get to work. Have a good afternoon k.

ANY unique content about any of the keywords plus good title and meta will help alot if possible. Im on it.

kathryn.anne.oconnell@gmail.com - 5:22 PM

ype, I'm on it!

thanks for claling chad

this is why I love you. you fucking give a shit about this. You get your shit done. LOVE IT

thanks!

Chad Arrington - 5:28 PM

Be good!
