Hi Chad!

I know we didn't get a chance to recap again yesterday, but I've already begun the chopped HTML versions for the minisites. So far I've completed all MMR promos (Tobacco, 26F, and Death of Retail) all saved as drafts. I'd like to get your opinion on how I've started to set them up before I get too far in, in case there are any major changes. Would you be able to take a look at one when you get a chance and let me know your feedback? I've included a link to the confluence page below. All links are included:

Thanks so much ☺
