I've given those two emails access to http/https MM AND OEI. I also added Alex to our MM HTTPS webmaster tools account and gave him Full access should you guys need to make changes. You should be able to access everything too but LMK if you need me to add your gmail. I'll do it when I get home.

THANKYOU!

Subject: NEED Google Analytics Access

KO,

I need access to OEI Google analytics for my posirank team. Just like you did for MM so we can pull reports and look at everything for the site data and html improvements. We can also keep track of the crawl stats to see how this https change helped or hurt.

Please give Google Analytics and WMT access to OEI. This will really be helpful for the audits and reports.

Our emails are louisdmerz@gmail.com and mkbyrd@earthlink.net for my posirank engineers.

Chad!

Thanks
