Thanks Chad! Looking forward to seeing how things go over the next week or two as it continues to rollout.

Hey Al,

Actually so far everything still looks normal.

The delay with Google Analytics won't show most recent 2 day traffic. But yes the new Penguin has arrived. Now it will be much easier to build any over optimization or reverse any penalties with the real time data!

Will be monitoring all weekend. So Monday will see if any dip or rise in traffic from the weekend. It will be good to see what happens over the next month.

Thanks Crew,
Chad

Hey Guys,

Did you notice a big increase / decrease today in your Google traffic?

I'm sure you've seen, but the new Penguin "real-time" update is live. This is very good news because any penalties can now be fixed very quickly.

The disavow we recently ran should be kicking in now too...

Thanks!
