Hi Chad,

Don't worry, all is good! So sorry for the confusion, it's totally my mistake.

Your order was completed and returned to you on Nov 30th! I can see it all went through and our lead on-page specialist (who does all the on-site audits) completed this 7 days after you ordered (Nov 23rd was when you ordered and paid for it).

Please download your report under "Legacy Reporting > SEO Reports" in your account.

Let me know pls! And again, sorry I got you unnecessarily worried, it was a total mix-up on my end. Must be that damned jetlag!!

Anything you need, please let me know.

Thanks Chad!

Hey Alex,

The day we talked. I went and ordered the audit. That's what's our conversation was about. I needed the Audit just like you did for money morning for OEI. Our new website. I don't have this in before New years they going to cancel that contract for me because I didn't deliver the full plan. I got Louis and Jason's backlink and off page plan but we still need the on page portion to move forward. They are in my Ass so I'm praying all goes well. Hope things are well with you and the crew. I'm in a bit of a crunch so keep me posted. I sent this order in just for you and ordered the same way I did previously. Wanted to find the order for you. Let me know if you got the payment.

"Order ID: 115231

Order Date: Nov 23rd 2016

Ordered By: chadmmp@gmail.com

Full-Scale, In-Depth On-Site Audit: (400 pages max analyzed)

Form Data Submitted to Posirank

Url <http://oilandenergyinvestor.com/>

Site Description Kent delivers the latest energy news from his travels around the world in his role as a consultant for major companies and governments.

Terms 1 1

Terms 2 1

Order Cost Breakdown

Order Order: 1299 credits
Value Addons: 0 credit

Total: 1299 credits"

Let me know Al. Thanks bro!

The screenshot shows the Posirank website interface. At the top, there's a navigation bar with 'Home', 'Results', 'Order Details', and 'Account'. Below this, the 'View & Manage Orders' section is active. It displays the order details for 'Full-Scale, In-Depth On-Site Audit: (400 pages max analyzed)'. The order was placed on Nov 23rd 2016 for 1299 credits. The site description is 'Kent delivers the latest energy news from his travels around the world in his role as a consultant for major companies and governments.' The order cost breakdown shows 'Order: 1299 credits' and 'Value Addons: 0 credit', totaling 1299 credits.

Below the order details, there's a table listing various projects. The table has columns for 'Project', 'Category', 'Status', 'Date', 'Action', and 'Info'. The projects are listed in a grid format, with each row representing a different project entry.

Hi Chad! Great to hear from you and hope all is going well this month and you're looking forward to some "holiday rest"!

I'm a little confused and now worried because I was under the impression that, after the call, you were going to get back to me with details of the audit you were looking for, a budget and then I'd setup the custom audit order you'd get it paid for?

I'm very sorry if this is my fault, but I thought you were going to get with me on this :(

We can still get this done and I'll assign our top specialist. The turnaround time won't be a very long time because I'll push this order above others. I just need to know exactly what you need and we'll get the order placed and paid for.

Again, sorry if I've messed this up. I should have followed up with you :(

Alex!

My Guy! how are things! Just wanted to check in on our audit. You let me know where we're at and if you need anything from me. Hope you doing great!
